8. Project Demonstration Phase

Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Project Phase Document

Demonstration Objective

Demonstrate the complete standard laptop procurement automation from the request/approval stage through task update and Hardware assignment.

Demo Sequence

- 1. Introduce the project title and objective.
- 2. Open the ServiceNow environment.
- 3. Show the relevant request/process.
- 4. Show the Flow Designer flow named Standard laptop task.
- 5. Explain the configured trigger/condition.
- 6. Show the short description update action.
- 7. Show the Hardware assignment group action.
- 8. Execute or demonstrate the test scenario.
- 9. Show the resulting task and assignment.
- 10. Summarize the result and future enhancements.

Demonstration Evidence

Include screenshots of the ServiceNow flow, execution details, resulting task, and Hardware assignment. The final demonstration video can be linked from the GitHub repository README.

Demo Closing

The demonstration shows how Flow Designer can automate standard laptop procurement activities and reduce repetitive manual task updates.

Final Submission Checklist

- Demonstration PDF.
- Demo screenshots.
- Demo script.
- Video link or video file, subject to GitHub file-size limits.
- Public GitHub repository URL.
